 **FIMAP**[®]

UP35

UP35 is Fimap's upright vacuum cleaner suitable for cleaning carpets and small to medium-sized carpeted floors. Operations are made easier by the ergonomic handle, which provides great manoeuvrability, and by the standard accessories, which enable to clean even corners and small surfaces. It offers excellent filtration performance thanks to the standard **HEPA filter**. The efficient vacuum motor guarantees maximum suction power while keeping energy consumption and noise levels low.

FAST AND EFFECTIVE CLEANING
The powerful rotating brush moves the fibres of the fabric, enabling to quickly and thoroughly collect dirt and dust, achieving perfect results even on very dirty carpets. It is equipped with an electronic control that prevents overloading.

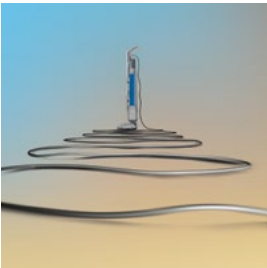

99.97% FILTRATION EFFICIENCY OF PARTICLES UP TO 0,3 µm
The standard HEPA air outlet filter captures thin dust ensuring improved air quality returning into the environment

ACCESSORIES AT HAND AT ALL TIMES
Clip holders built into the body of the vacuum cleaner enable accessory nozzles to be kept neatly in place at all times and to be at hand during the cleaning task, so that more specific cleaning needs can be resolved immediately.

FULL BAG INDICATOR
A light warns when the filter bag is full and needs to be replaced. Replacement is easy: just open the front compartment and insert the sleeve into the filter opening. The filter bag capacity is 6,5 litres.

WIDE OPERATING RANGE
The cable provides a working radius of 10 metres, which avoids having to change sockets during the cleaning operation and thus wasting time.

A SET OF NOZZLES TO MEET ANY REQUIREMENTS
The standard set of nozzles allows you to meet specific cleaning needs on small areas, cleaning hard to reach spots and narrow gaps.

TECHNICAL DATA		UP35
Type of dirt		dust
Drive		belt
Working width	mm	350
Suction motor power	W	670 (High efficiency)
Brush motor power	W	150
Vacuum	kPa	20,6
Air flow	l/s	43
Bag capacity	l	6,5
Power supply*	V/Hz	220-240/50-60
Sound pressure level (ISO 11201 - LpA)	dB (A)	74
Cable length	m	10 (230V)
Cable length (yellow)	m	12 (115V)
Weight	kg	8,5
Machine dimensions (L x h x w)	mm	210 x 1210 x 360

* V/Hz 115/60 is also available

BUILT-IN CABLE HOLDER
The integrated cable holder allows the cable to be wound up correctly at the end of the operation, preventing premature wear and tear, and the carpet cleaner to be stored neatly and safely.

ACCESSORY KIT 035

Standard accessories include:

- **Telescopic tube**, it extends up to twice its length to reach the furthest points
- **Hose** for maximum ease of movement when using the specific nozzles
- **Crevice nozzle**, suitable to reach corners and narrow gaps
- **Suction brush with bristles** for cleaning small areas, with delicate, uneven or grooved surfaces
- **Upholstery nozzle** for effectively vacuuming padded chairs and armchairs in waiting rooms and offices
- **Paper filter bag** with 6,5 litre capacity
- **HEPA outlet air filter** providing 99,97% filtering efficiency against particles up to 0,3 µm

OPTIONAL

- **Reusable fabric filter bag**, it can be washed, to increase consistency of performance over time and extend service life
- **Air freshener**, to release a pleasant scent into the environment
