## TROLLEY VACUUM CLEANER

With Li-ion battery and stair climbing wheels

The vacuum cleaner that follows you everywhere

 **FIMAP**<sup>®</sup>

# FV-CART

The battery powered FV-CART vacuum cleaner is a powerful and handy professional trolley model, suitable for cleaning operations in which it is necessary to change environment often.

It is powered by a lithium battery that ensures the maximum mobility, without being tied down by a cable, and continuous availability, since it can be recharged at any time, so that is always ready to use.

It is equipped with a full set of on-board accessories to help you easily and conveniently solve different cleaning needs. The stair climbing wheels make transfer effortless even on steps.

It is ideal for cleaning contractors, for applications in the transportation sector, on trains, planes and buses, as well as in hotels, offices and waiting rooms.

## Professional results are ensured by the standard equipment

Double filtering system, comprising a high filtration paper filter bag and a fabric filter

36V Li-ion battery and battery charger

Stair climbing wheels, to easily overcome possible steps
