

A WATER FED POLE SYSTEM

POWER BRUSH

nLITE[®]

On Top: Swivel function and Power bristle technology

Outstanding down to the last detail: a fully optimized brush concept prepares you for almost any challenge.

- Clever water distribution system
- Innovative bristle technology
- Precision cleaning down to the last corner
- Ultimate cleaning performance for perfect results

POWER BRISTLE TECHNOLOGY

- A** Inner bristles with extremely high cleaning performance, comparable to natural hair bristles
- B** Longer outer bristles for easy gliding: no more annoying jumping of the brush

SOFT TOUCH BUMPER

The edge protection made of soft plastic:

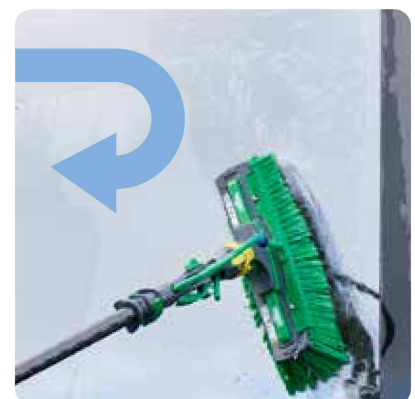

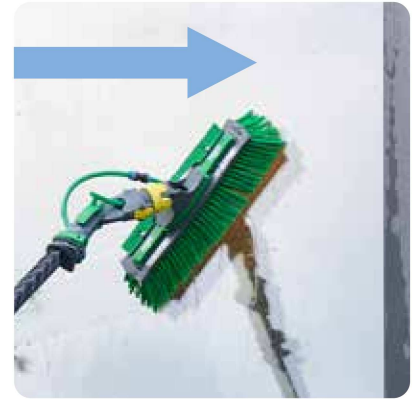

- Safe protection against scratches and other damage to window frames
- Significant noise reduction when coming into contact with parts of the building

RINSE BAR

This special flushing nozzle bar is attached above the brush and delivers the right amount of pure water exactly where it is needed for powerful rinsing of the cleaned surface - surface - more effective than ever before!

- Ideal in connection with the swivel function
- Water jets from the nozzle block built into the middle of the brush ensure powerful dirt removal
- Either the rinse bar or the central nozzle block can be connected

SWIVEL LOCK

You've never cleaned faster and more precisely down to the last corner: the swivel function is a completely new way of cleaning with pure water up to the first floor (6 m). Open the SwivelLock and experience the advantages:

- The brush socked, which can be swivelled freely through 180°, enables the surface to be cleaned with an S movement with the brush touching down over the entire surface
- Enlarges the work area, ideal for cleaning from boom lifts or gondolas

Brushes for nLITE® CarbonComposite-, Carbon 24K- and nLite®Connect- telescopic pole systems

nLITE® POWER BRUSH, SPLICED

Strong cleaning performance and perfect gliding performance. Recommended for maintenance cleaning

- With Power Bristle technology
- Nozzle block integrated in the middle of the brush for powerful dirt removal
- NFK: With a special rinse nozzle strip above the brush for powerful rinsing
- Including hoses with quick connectors

Part No.	Size	Version	Pack
NFK28	28 cm	with rinse bar + swivel loc	1
NFK41	41 cm	with rinse bar + swivel loc	1
NFF28	28 cm	simple	1
NFF41	41 cm	simple	1

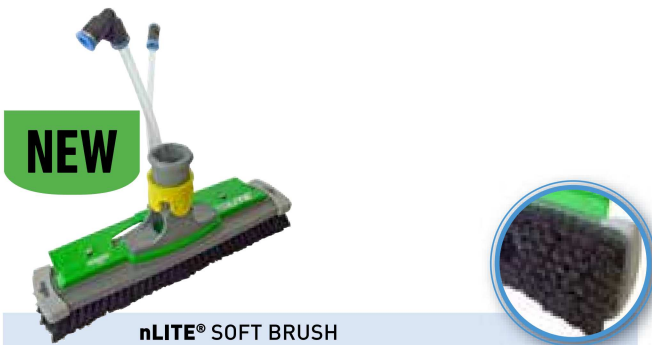

nLITE® POWER BRUSH, UNSPLICED

Very good cleaning performance. Optimal flushing of the bristles with almost no residue. Recommended for maintenance and solar cleaning.

- With Power Bristle technology
- Nozzle block integrated in the middle of the brush for powerful dirt removal
- NUK: With a special rinse nozzle strip above the brush for powerful rinsing
- Including hoses with quick connectors

Part No.	Size	Version	Pack
NUK28	28 cm	with rinse bar + swivel loc	1
NUK41	41 cm	with rinse bar + swivel loc	1
NUF28	28 cm	simple	1
NUF41	41 cm	simple	1

nLITE® SOFT BRUSH

Gentle surface cleaning. Reduces risk of damage to sensitive surfaces.

- Thin bristles with high flexibility
- Short bristles in high density for stable fibre layout
- Nozzle block integrated in the middle of the brush for powerful dirt removal
- With a special rinse nozzle strip above the brush for powerful rinsing
- Including hoses with quick connectors

Part No.	Size	Bristles	Pack
NFS28	28 cm	synthetic, 2,5cm	1
NFS41	41 cm	synthetic, 2,5cm	1

nLITE® HYBRID BRUSH

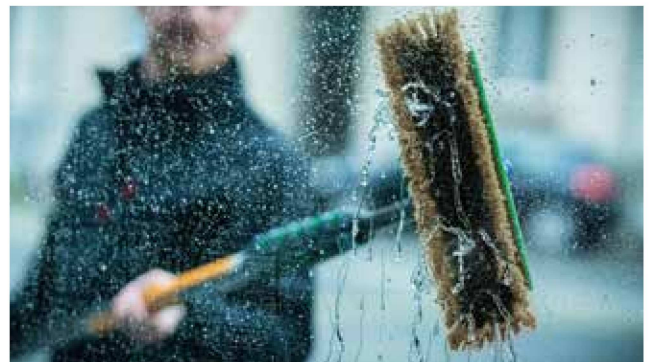

Extremely powerful cleaning performance. Easier glide and less weight than full natural hair brushes. Recommended for maintenance cleaning and solar cleaning.

- Outside boar bristles - high cleaning power of the folded bristles, no streaks
- Inside bristles with Power Bristle Technology - very high scrubbing power - easy glide - low water absorption
- With a special rinse nozzle strip above the brush for powerful rinsing
- Including hoses with quick connectors

Part No.	Size	Bristles	Pack
NUH28	28 cm	Natural bristles+Power	1
NUH41	41 cm	Natural bristles+Power	1

i TIPS FOR USING THE nLITE® SOFT BRUSH:

- 1. Test the brush on the surface!**
Test the brush on a concealed area before using it over a wide area. On surfaces that are sensitive to scratches, undesirable permanent signs of use may occur despite the gentle surface cleaning.
- 2. Use plenty of water!**
A film of water forms which makes the brush glide better. Furthermore, the brush is rinsed well so that less dirt gets stuck in the bristles and scratches are prevented.
- 3. Pay attention to the cleanliness of the bristles!**
There should be no particles in the bristles, as this can lead to scratches.

ATTENTION: Some surfaces are easily scratched. Always test brushes prior to use.

BRUSH OVERVIEW for nLITE® telescopic pole system - also compatible with nLite® Connect telescopic pole system
