

TRADITIONAL WINDOW CLEANING

Quality Tools for Smart Cleaning

NEW VISA VERSA PRO

Perfectly clean windows in an instant

The **VisaVersa® Pro** combines a washer and window squeegee in a single cleaning tool. The tool's significant improvements guarantee professional cleaning with top results.

Save time: Simply flip it over, so no need to waste time changing cleaning tools on your telescopic pole. Additional benefits:

The VisaVersa® Pro pad stores plenty of water, which means fewer trips to your bucket, and the removable window squeegee allows for quick, streak-free drying.

Work ergonomically: The **VisaVersa® Pro** weighs significantly less than other tools, meaning that it is easy on your joints and you can work without tiring. The non-slip handle ensures greater safety both in your hand and when attached to a telescopic pole
